INDUSTRIAL GRATINGS – FENCES

## QUALITY POLICY

The Quality Policy of **MAK-GRATINGS** falls within the framework defined by the standard ELOT EN ISO 9001:2015, with the aim to fully meet the requirements for quality, as these are specified by the requirements of customers, but also by the International Standards.

The Administration of the Company has decided to implement a Quality Management System, according to ISO 9001:2008 and to certify it. In the year 2017, the Company revised the system, in order to comply with the new version of the standard 9001/2015. Basic incentive consists in searching for continual improvement of the internal operating system and its effectiveness, as well as the acquisition of know-how, to meet the needs and requirements of the customers to the fullest extent possible.

As a consequence of the above, the Administration of the Company commits to comply with the quality objectives and to adhere to the Rules and Regulations which govern its operation.

The adoption of the Quality Policy constitutes the means to achieve the quality goals. We follow the Quality Policy, as the continual improvement of the Quality Management System is based on it, according to the standard ISO 9001:2015.

The Administration commits to provide any kind of means, to the personnel but also in facilities, in order to contribute to the development of the Company for the achievement of the dominant objective, which is to ensure meeting the customers' requirements.
